

Thankfulness

David and Gill

In July our second grandchild was born. Joel William a son for Tom and Keira and a brother for Aoife who is now 4 and started school in September.

We give thanks for this new life, he was 2 weeks early as the Doctors were concerned because he was not growing.

He was 5lbs 7oz born and is now nearly six months old and thriving

After many years of camping in our "glorious" and uncomfortable tent we finally upgraded to a trailer tent. For those who don't know a trailer tent has comfy beds raised up off the ground, as opposed to airbeds on the ground in a tent.

So you can imagine my "Sadness" when the camping weekend in HOSM was cancelled and not only that but the One event camping at Lincoln Showground was also cancelled.

Finally, this year, we moved house. We decided to downsize as the children have left home and are all settled in their own places, and we were in a big house. Without going into all the details, there were hiccups along the way and delays, and I thank all those who prayed for our move.

We moved at the end of November into a lovely 3 bed bungalow, remember the word downsize! Well, we did downsize the house, but the garden is bigger than our previous house, it's about an acre, but that is David's domain and he is very happy with it. He is looking for "a ride on" lawnmower (Sadly Santa did not bring one) in all the years the children were growing up they never showed an interest in mowing the grass for Dad – Now suddenly they are all offering!

I thank God for the move to this village and just after 4 weeks I feel really settled in the bungalow and look to the new chapter he has started in our lives living in Holme on Spalding Moor.

Gill and David
